BAND STORY

"

I got my start when I attended a high school in Eldy. A humble start it was. Armed with virtual Dj software in my dad' s desktop, I began playing Techno knowing it was an easy task for any starter Dj. Having that kind of in-burn anxiousness in spinning, I started visiting my friend' s music store where he used to make and sell music mixes. After a long run, I began practicing and knowing how it is done. I really got into the game when I came to the US and got a small and unsophisticated machine for keeping me and my fans busy. I am just a Kenyan who loves to be on the decks. 🙌🏾
